PROJECT CLOSURE REPORT

Course   : E-DAC
Group No : 03
Members : 1) Achal Arun Jaiswal (2004).
                 2) Samadhan Nana Gaikwad (2044).

➢ **General Information:**
• Overall productivity achieved.
   The Project included two members of the group

Project members	No of day	No of hrs/PERDAY	Total hours
Samadhan Gaikwad	15	7 Hrs	105
Achal Jaiswal	15	7 Hrs	105

• Number of complaints
   NO complaints achieved during the process of project
• Process used and process deviations.
      At beginning The developers has not planned to implement the ADMIN part , but during the development Admin plan was made.
• Estimated and actual start and end dates of the project.

Proposed date	Implementation date	Starting date	End Date
05-03-2021	09-03-2021	10-03-2021	26-03-2021

• **Tools used.**

Name of tools	Works
VSCODE	For code Writing and Editing
MYSQL	For storing data
POSTMAN	For testing Requests
SPRING	For Backend coding

➢ **Risk Management**

• **Risk identified at the start of the project**
   1.) Risk in implementing Admin page
   2.) Risk in Calling the username on the homepage
   3.) Risk in Specifying the roles in actors , which product will be shown to which Actor
   4.) Linking of pages

Risk encountered during the project

1) Risk in payment process & calculation
2) Risk in Payment gateway
3) Risk in Admin Control

- **Notes on risk mitigation**
    1) Giving direct access to Database to eliminate Admin page Risk
    2) Using scripting HTML template for Calling username
    3) Using local payment gateway

- **Estimated and actual size (in KLOC)**

Project	Size (no of lines)
E Car Accessories Online Shopping System	Approximately 494568

- **Notes on Estimation**

✓ **Do not count comments as lines of code**

1)

Defects:

- **SDLC stage-wise defects**

SDLC FLOW	DEFECTS
Design	No defects
Implementation	Admin module, payment gateway
Testing	Some lines should me commented to avoid override of data
Evaluation	No defect
Analysis	No defect

- **Distribution of defects as major, minor etc.**

Name of Defect	Major	Minor
Admin Page	Major	-
Payment Gateway		Minor
Overriding of data		Minor
